

Evolution is Solution

SiM

I woke up and looked around the room
Only thing I found is bloom of doom
White floor, white wall, white ceiling, everything is white
Oh shit, I can't remember last night
Oh oh, on the way home
Oh oh, I dropped the phone
When I bent down to pick it up something came to me
Their big shadow was all could see

This is the last thing I remember
I'm just like a mosquito in an amber

Tell me where I am and take me home
Oh oh I'm not a rat
Tell me why I'm here please take me home
Oh oh I'm not a rat

Evolution is Solution

I just want to get outside
I want to know what's happening out of my sight
Then he came in and gave me a big big happy bag
Oh oh, I opened the beg
Oh oh, took a peek inside
It was filled with my lies and black roses
Yes, I'm buried under broken promises

This is the last thing I remember
I'm just like a mosquito in an amber

Tell me where I am and take me home
Oh oh I'm not a rat
Tell me why I'm here please take me home
Oh oh I'm not a rat

Evolution is Solution
Change yourself, then you can change your world
Evolution is Solution
Change yourself, then you can change your world

Bloom of species, room of catharsis

Can I puzzle it if I recall?
How do I guess where we go?
I thought I can have it all

Tell me where I am and take me home
Oh oh I'm not a rat
Tell me why I'm here please take me home
Oh oh I'm not a rat

In the white room I'm all confused
Eh eh could I be excused?
Can't you read my facial cues?
Is it hard to see through?

"Evolution is Solution"

This is what I found
