

# Slim Thing

SiM

way in my brain...  
kill the pain rather than cutt'n my veins  
I don't wanna end in vain  
kill the pain rather than cutt'n my veins  
I don't wanna end in vain  
please me, please me  
I don't want to suffer  
too early to cross over death's river  
please me, please me  
I don't want to suffer with you forever

every time I sink in bed  
same old vision pops in my head  
I want to have some wet dream instead  
no, no, no! I'd rather be dead  
close my eyes all through the night  
waiting for the moment of sensual delight  
but he's only one who's talking to me  
no, no, no! oh god, set me free!

a man called "BANE" is coming  
no, not again  
I don't wanna go insane  
tonight, this is my farewell  
I told him once, "go"  
he refused it twice "no, no"  
he doesn't care about me or my advice  
but tonight, I'll say farewell

this started a couple of years ago  
him chasing me is the only thing I know  
how can you moves so fast? take it slow!  
no, no, no! he tries to break down a door  
I gotta fight with this tiny blade  
I'm on my way to the mystic glade  
this place is gonna be your grave  
yeah I'm a brave, I'm a brave, I'm a brave man

a man called "BANE" is coming  
no, not again  
I don't wanna go insane  
tonight, this is my farewell  
I told him once, "go"  
he refused it twice "no, no"  
he doesn't care about me or my advice  
but tonight, I'll say farewell

it's good to me that you lost positive vibration  
you gotta live in moderation from the beginning  
what the hell is "power of money" that you believe in  
party is over, party is over, party is over  
this is the end

I'll celebrate your death (wow oh oh)  
I'm sorry that you're gone forever  
I'll celebrate your death (wow oh oh)  
I'm sorry that you're gone forever

this is my farewell
