

# What Has She Got

Carly Simon

I've got eyes they call beguiling  
A string of cultured pearls  
And my lips are always smiling  
I'm not one of those moody girls  
I've studied cooking in a French cafe  
As bal and cheins last prodigy  
A one time runner up Miss USA

What has she got that I haven't got  
Why am I not the girl that makes your heart go dancing  
Puts stars in all your dreams  
She's everything you want and I'm just me

What has she got that I haven't got  
I've got a bed that's warm  
I've got a room that's sunny  
Kisses so honey sweet  
I try everything to sweep you off your feet

Do you like her kind of trouble  
Does she bring you to your knees  
Have I been playing you all wrong  
Always trying to please you

What has she got that I haven't got  
What has she got  
She's got you.....
