

# Fight For Your Life

Simon Curtis

Dark  
All around you skies are dark  
There's a hole inside your heart  
Where the light won't seen a spark, no

Surrounded by this feeling  
Don't let it take control  
You're a commander  
Let it now

Make the night explode  
Let your fire grow  
Baby it's a war, a war  
Fight for your life

Burn  
You can feel it start to burn  
Beat the sun had make it turn  
And the ocean start to show, oh

Make the night explode  
Let your fire grow  
Baby it's a war, a war  
Fight for your life

Baby tonight  
Fight for your life  
Baby tonight  
Fight for your life

Baby it's a war...  
Take control of the dance floor

Baby tonight  
Fight for your life  
Baby tonight  
Fight for your life

Make the night explode  
Let your fire grow  
Baby it's a war, a war  
Fight for your life

Baby tonight  
Fight for your life  
Baby tonight  
Fight for your life
