

## Drama For Two

Sinamore

Like center page; I read through your eyes again  
Your love is like a gun  
With your lies, burning way through fire again

Dark walk I roam  
Hiding in your shadow as you are  
Re-created way of pain  
Fight against the fears you gave me - You are

Forever loveless kingdom.  
Your face hurts like a scar  
The pain that you sow make me go too far.  
In your dreams heaven is flooded with the sin.  
The truth is that I have lost you deep within.

Still in my dreams we both die

Dark walk I roam  
Hiding in your shadow as you are  
Re-created way of pain  
Fight against the fears you gave me - You are
