Come Around

Sing It Loud

I'm all tied up and I'm trying My best to get down, come on girl Come around, come around I'll wait up all night just to see you move And for the past few days I've been doing my best to move on Baby, baby, shake it up and come along Let's take a ride and forget this town tonight Late night Bring back the heat some more What's right I don't know what I'm waiting for It takes all that I have Just to move along It takes all that I have It takes all that I have Last call

That's what I said tonight Passed out Lose control in the fading light So many nights spent with you In the beginning It takes a while getting used To having nothing

I would give all I have Just to be what you need Until the end I'd give myself to be me And to hold you close again

I'm all tied up and I'm trying
My best to get down, come on girl
Come around, come around
I'll wait up all night just to see you move
(See you move)

And for the past few days I've been doing my best to move on Baby, baby, shake it up and come along Let's take a ride and forget this town tonight

Exposed and you're my weakness I'll take this day by day Exposed and you're my weakness There's nothing left for me Exposed and you're my weakness I'll take this day by day Exposed and you're my weakness For loss of words to say

I'm all tied up and I'm trying My best to get down, come on girl Come around, come around I'll wait up all night just to see you move (See you move)

And for the past few days I've been doing my best to move on Baby, baby, shake it up and come along Let's take a ride and forget this town tonight

What goes around comes around in the end It takes you down and you're never gonna stop it What goes around comes around in the end It takes you down and you're never gonna stop it What goes around comes around in the end It takes you down and you're never gonna stop it What goes around comes around in the end It takes you down and you're never gonna stop it

What goes around comes around in the end It takes you down and you're never gonna stop it (I'm not waiting for you) What goes around comes around in the end It takes you down and you're never gonna stop it (I'm not waiting for you) What goes around comes around in the end It takes you down and you're never gonna stop it (I'm not waiting for you) What goes around comes around in the end It takes you down and you're never gonna stop it (I'm not waiting for you)

I'll wait up all night just to see you move
