

The Silent Howling

Sinister

A vision of power
Confirmed by lunacy
Driven by anger
No signs of secrecy
Rely on what they want
Or what has not been seen
A future so desperate
Untold yet still to be

For the blood on my hands
Riders of death
Rely on what they want
Or what has not been seen

A contract of power
Deformed by purity
Perfume of hatred
Dismal atmosphere
I am what is left of it
I am their history
A future so desperate
Untold yet still to be

The silent howling, provoked conspiracy
Malicious vagrancy
The silent howling... it has not yet been done

Scraping the flesh of nature
For this has not been told
Artificial empathy

Beast of burden... for this has not been told
Mandate of violence... for this has not been told
Cruelty of art... for this has not been told
Malicious deformity

Path of no return
Together as one
Crusader of the realm
To where the demon has won

The silent howling (3x)

Path of no return
Together as one
Crusader of the realm
To where the demon has won

A vision of power
Confirmed by lunacy
Driven by anger
No signs of secrecy
Rely on what they want
Or what has not been seen
A future so desperate
Untold yet still to be
