

# Crime Of Passion

Siobhán Donaghy

I want you  
But I can't have you  
I spent all day thinking about nothing else  
I need to  
Be with you  
'Cause I can't stand it by myself

I'm on the train on the way to work  
As my brain syphons through the hurt  
There's a man staring hard at me  
How do I look  
What does he see in me

I warn you  
If I can't have you  
I won't give you up to no one else  
I'll hurt you, if I have to  
I will fight with tools of war and stealth

I'm getting lunch from the sandwich bar  
Egg mayonnaise, familiar  
Faces and words only go so far  
Gonna keep my heart here in my bra

I want you  
But I can't have you  
I spent all day thinking about nothing else  
I need to, be with you  
'Cause I can't stand it by myself... well

I don't think you take me seriously, ooh  
I am hurting and you're gonna see, ooh  
What it feels like deep inside of me, ooh  
Now I wont rest 'til I have victory, ooh

'Cause I want you  
And I'm gonna have you, ooh  
I'll spend my days with you or else, ooh  
I'll fight you  
Then I'm gonna physc you, ooh  
I'll take you on until you melt, ooh

Fate and fashion  
Crime of passion  
No redemption in this world, ooh  
First I break you  
Then I take you  
Having rung the judgement bell, ooh  
I will scorn you, when I've torn you  
And I'll spit you out as well, ooh  
Now I mourn you  
I still love you  
And I'll be with you in hell, ooh

I love you  
And I'm gonna miss you  
Wanna kiss you

One more time
