## Sea Of Light

## Siouxsie and the Banshees

I float quietly Without a sound Forever and ever 'til the end of time And see myself lying still at the scene of the crime Lying still at the scene of the crime

Like blood in the body Like wind in the water I passed over to the sea of light Follow me into the sea of light The sea of light

The miracle skin from the rainbow's edge Let it rain down, let it descend Riding on a river of stars The heavens open at the tunnel's end

Like blood in the body Like wind in the water I passed over to the sea of light Follow me into the sea of light

Like blood in the body Like wind in the water Let it rain down, let it descend Sea of light The sea of light
