

All Your Love

Sir Sly

Good enough ain't good enough for you or me
And feeling stuck is fucking up my sanity
Fallelujah filling empty spaces
Hallelujah, I need saving, not a savior
Clutch until my knuckles white
Show my teeth, but never bite
Acting like I'm innocent
Pushing daisies in a dream
Letting out a silent scream
I feel like a pig in shit singing

"Fallelujah"

Allelu!
In my bones
LA's on fire again
Costumes and sirens
Pictures of you
In my phone
I'm back in hell alone singing

"Fallelujah"

"Hellelujah"

I've been spinning stories, baby
You've been on the road
Telegraph me going crazy
Lost inside a hoax
Inhale you like freebase
Spirit fill me up
Driving quiet freeways
Send me all you love

"Fallelujah"

Allelu!
In my bones
LA's on fire again
Costumes and sirens
"Hellelujah"
Pictures of you
In my phone
I'm back in hell alone singing
