

Trippin'

Sir Sly

Whose house is this? What party did I end up inside?
Across the room, you're standing like a vision of life
I really wanna taste you (so what's your name?), baby, I should get your name
I really wanna know you, like now, I really wanna know you
I'm hooked

(If I, if I, if I were you, I would say yes)
You've got me hooked
(If I, if I, if I were you, I would say yes)

You, you've got me trippin'
All over you, you've got me trippin'
What should I do?
A little more waiting and then that's enough
I'm way too faded for falling in love
You've got me trippin' all over you

(If I, if I, if I were you, I would say)

What song is this? I'm grooving on the floor to catch your eye
We're talking now, 'bout God and politics and computer sites
You say you got a boyfriend, he's probably more stable than me, but let's play pretend
I really wanna know you, like now, I really wanna know you
I'm hooked

(If I, if I, if I were you, I would say yes)
You've got me hooked
(If I, if I, if I were you, I would say yes)
(Ahh, you've got me hooked)

You, you've got me trippin'
All over you, you've got me trippin'
What should I do?
A little more waiting and then that's enough
I'm way too faded for falling in love
You've got me trippin' all over you

It's 5 AM, still talking by the pool
Totally smitten and I can't play it cool
You've got me hooked, got me trippin' on you
You've got me hooked

(If I, if I, if I were you, I would say yes)
You've got me hooked
(If I, if I, if I were you, I would say yes)
You, oh

You've got me trippin'
All over you, you've got me trippin'
What should I do?
A little more waiting and then that's enough
I'm way too faded for falling in love
You've got me trippin' all over you
