

Welcomes The Pressure

Sir Sly

Look at me
Something from a TV screen
Chasing down some ecstasy
But I want you to think that I'm deep

Do some drugs
And dress up like a 90s dad
Keeping up with all the fads
But I want to belong to the scene

Oh I know maybe this won't last forever
But baby I welcome the pressure

Holy hell
I talk a lot about myself
Do interviews on mental health
And how I'm living the dream

I thought it cool
Making music dropping out of school
But I probably won't have the tools
To keep myself off the street

Oh I know this ain't gonna last forever
But baby I welcome the pressure

La la la la la...
You like that
La la la la la...
Now you know it so sing along
La la la la la...
We wanna be the biggest band in the world so please sing along
La la la la la...

It's been my pleasure
And I welcome the pressure
It's been my pleasure
And I'd like to think that I work better under pressure
