

Never Felt Anything That Good

SiR

You give me that tingle in my toes
Such a unique feeling deep down in my bones
At it's peak it won't cease leaving me 'lone

Baby I
Never felt anything that good

Sweeter than a honeycomb
One and done
One hit and I'm really gone
On the run, you're as real as it'll come

And I
Never felt anything that good

Baby you're a keeper, turn the saint to a sinner
Turn a sinner to a sinister minister
Just so he can stay beside the Lord yeah

Never felt anything that good

I just want to say that I'm so glad I know your love
I just want to say that I

Never felt anything that good
Never felt anything that good
I never felt anything that good
I never felt anything that good
I never felt anything that good
