

## The Perfect Remedy

SiR

I'm in need of a different kind of drug  
And you are, the perfect remedy  
Something that'll replace the hole in my heart  
Make me complete  
I know it's only temporary  
But I'll take what I can get (oh yeah)  
Just something that'll keep my mind off  
Off of the pain that she left

See I'm in need of a different kind of drug  
And you are (you are), the perfect remedy  
Something that'll replace the hole in my heart  
Make me complete

I promise I'll be gentle  
While I break your love apart  
I just need a hit of your affection  
To light my way through the dark

I'm in need of a different kind of drug  
And you are, the perfect remedy  
Something that'll replace the hole in my heart  
Make me complete

This is just a bit of history repeating  
Now I'm holding new life  
And it feels good, it feels right  
It might hurt you baby, but it's worth it baby

I'm in need of a different kind of drug  
And you are, the perfect remedy  
Something that'll replace the hole in my heart  
Make me complete
