

The Real

SiR

No pressure, no rush, no commitment
Let's take it slow
Girl we've been waiting a long time
What they say, anything good is worth waiting for
So I'm sure we
Are right where we need to be (love)
Just, trust your heart
And I'll let love take the lead
'Cause I'm ready for the real

Ain't nothing like the real thing baby
I know how it feels, if you wanna go
I know how to take us there
You just gotta know
That this could be...
(Real, real, real, real)
(Real, real, real, real)
(Real, real, real, real)
This could be...
(Real, real, real, real)
(Real, real, real, real)
(Real, real, real)

Ain't it, ain't it, ain't it so amazing
A year ago, we wouldn't be having this conversation
Love was a game that we both loved playing on
Now it's a little different
Can't imagine anyone standing in my position
The commitment is the only thing missing (oh!)
Why don't we both, just say what we really mean? (oh)
I'm trying to make it easy baby
Why are we running from everything that we need?
Don't you believe, that we're ready for the real?

Ain't nothing like the real thing baby
I know how it feels, if you wanna go
Baby I can take you there
You just gotta know
That this could be...
(Real, real, real, real)
(Real, real, real, real)
(Real, real, real, real)
This could be...
(Real, real, real, real)
(Real, real, real, real)
(Real, real, real)
