Once in a life time

Come take me away

```
An angel sweeps u off your feet
And everything I'm about
Disappears before my eyes
You're taking me higher when I hear u speak to me
It feels so familiar that I'm caught up in this fantasy
Now I can't seem to fight myself
Oh I can't seem to ease my mind
Oh I think I'm falling, I'm falling
And I can't stop falling, I'm falling in love with you
When I look into your eyes
I see your love that comforts me
Every now when I go to sleep
I wait to see u in my dreams
You're taking me higher
When I hear u say my name
I'm trying to tell u
That I never want to let u go
Now I can't seem to fight myself
Oh I can't seem to ease my mind
Oh I think I'm falling, I'm falling
And I can't stop falling, I'm falling in love with you
Over and over again
It plays out in my mind, I can see it clearly
You've given me something new to believe in
Come take me away
Oohhh (Come take me away)
Away
```

Away (Come take me away)

Away, away

(2x)

Now I can't seem to fight myself

Oh I can't seem to ease my mind

Oh I think I'm falling, I'm falling

And I can't stop falling, I'm falling in love with you

I'm falling in love(3x)

Love love ... with you.
