

I'll Wait Forever

Siti Nurhaliza

v1

Everytime I close my eyes

I'm having visions of my life,

and I see you

Now I can't get you outa my mind

I think I wanna make you my wife

Pre hook

Baby tell me why

you giving love to someone else when I need you

By my side

You're everything that I need

Hook

Now I can't help but feel it's not over

I can tell when I look in your eyes

Don't tell me that he loves you

And I should be with someone else

Cos the way that I'm feeling right now

o girl you know that

I'll wait forever ever *2

For your love

I'll wait forever ever *2

For your love

You giving love to someone else when I need you

By my side

I just can't get enough

Bridge

Does he love you like the way I do

Does he make you wanna fall in love

Does he give you everything you need

To make it

Will I ever believe you're mine

You know I told you, you're the only one

I can't do this any longer

Hook

Now I can't help but feel it's not over

I can tell when I look in your eyes

Don't tell me that he/she loves you

And I should be with someone else

Cos the way that I'm feeling right now

O girl you know that

I'll wait forever ever *2

For your love

I'll wait forever ever *2

For your love

For your love
