Six Feet Under

What will 2000 bring? The war of a billion things When darkness seizes the lords And darkness sends his judgment sword

They march through the battle fields Start the destruction wheels A scream of terror through the night The armies do their final fight

Holocaust Final loss Holocaust

What will the end bring to my life? Are you poisoned by? Are, are you for the night? Are you for the night?

Holocaust Final loss Holocaust

Listen to what I say We are coming upon the day When toxic gas fills the air And life can't be found anywhere

You run, but where can you hide? From the shelters I hear you cry The bombs bursting in air God help me, I'm so scared

Holocaust Final loss Holocaust

What will the end bring to my life? Are you poisoned by? Are, are you for the night? Are you for the night?
