

I'm gonna poison the population  
Gonna plan myself an assassination  
On the hunt to kill again  
I plan to butcher the planet

I'm like the cold hand of death  
Reaching out to snatch the next  
And when I'm through with them  
Motherfucker you're the next fucking victim

In this necrosociety  
In my necrosociety

I'll turn you all into blood sucking freaks  
Those who won't turn meat  
Feed to bleed to kill to live to die afraid  
Of what I can do to you

The savior of mankind  
The cause of world wide homicide  
Fall to your knees and pray to me  
My knife will set you free

In this necrosociety  
In my necrosociety

I'm gonna murder everyone on earth  
And when your dead I'm gonna kill myself

Murder mankind  
Murder mankind

Murder mankind  
Murder mankind  
Murder mankind

...
