

Fade Away

Six60

I don't really need that much
Close my eyes and follow the touch
And I found myself tangled up in you
Now every single thing around us
Is feeling like it's turning to dust
But we always find a way through

We won't fade away-ay-ay
Just light it up and crash into the brake
We won't fade away-ay-ay
Just light it up and dance around the flames
We won't fade away

Some things never change
Just the faces and the names
But the final page will read "you and me"
In the eye of a hurricane
We'll always stay the same
Whatever we gotta do
We'll find the way through

We won't fade away-ay-ay
Just light it up and crash into the brake (just light)
We won't fade away-ay-ay
Just light it up and dance around the flames
We won't fade away

Oh, whoa, whoa, oh, whoa, whoa, whoa
Oh, whoa, whoa, oh, whoa, whoa, whoa
We won't fade away
Oh, whoa, whoa, oh, whoa, whoa, whoa
No, we won't
Oh, whoa, whoa, oh, whoa, whoa, whoa

We won't ever fade away
We won't ever fade away
We won't ever fade away (we won't fade away)
We won't ever fade away, ay

Yeah
Things will never change
So just, so just light it up and crash into the brake
We won't fade away-ay-ay
Just light it up and dance around the flames
We won't fade away

Oh, whoa, whoa, oh, whoa, whoa, whoa
Oh, whoa, whoa, oh, whoa, whoa, whoa
We won't fade away
Oh, whoa, whoa, oh, whoa, whoa, whoa
We won't fade away
Oh, whoa, whoa, oh, whoa, whoa, whoa
We won't fade away
