

# The Greatest

Six60

I know the taste of my tears  
When they run down my face, yeah  
Reminds me of all of the years  
And the dreams I've been chasing  
Fueling the fire inside  
So the fears I can face 'em  
'Cause mama never told me nothing  
'Bout being complacent

So you can knock me down  
But I won't stay on the ground

Can't stop believing I'm the greatest  
Hearts breaking till I know I made it  
I'll never know what second place is  
No pain, no doubt  
Till the lights go out

Just a little more  
Makes it worth it all  
When I hear the call  
Will I rise or fall  
I know all my roads  
Lead to something gold  
So I will walk them all  
I will walk them all

You can knock me down  
But I won't stay on the ground

Can't stop believing I'm the greatest  
Hearts breaking till I know I made it  
I'll never know what second place is  
No pain, no doubt  
Till the lights go out  
Till the lights go out  
Yeah-yeah, yeah  
(Yeah)

Some days it feels like I don't wanna go any farther  
The only way I know to keep on is to keep pushing harder

Can't stop believing I'm the greatest  
Hearts breaking till I know I made it  
I'll never know what second place is  
No pain, no doubt  
Till the lights go out

Can't stop believing I'm the greatest  
Hearts breaking till I know I made it  
I'll never know what second place is  
No pain, no doubt  
Till the lights go out
