

# Violence

Skarface

You can't avoid it today  
And everywhere you go  
You'll find it on your way  
Violence is all around  
It's ain't sure on the streets  
As soon as you're on your feet  
And you go out by night  
You know it's for a fight  
Can't dress the way you want  
They'll say that you're a wank'  
But it's just an excuse To justify abuse  
Everything's good for them  
Violence is their big fun I start to be fed up  
To be the one looked up  
VIOLENCE It's ain't sure on the streets  
VIOLENCE Fed up of this shit  
VIOLENCE It's time to have justice
