

Take the streets in a blaze of glory
Biker gangs battle for turf
Smash the strike to bring down power
Executive council of fools
Now forget shame and honor
Open pandora's box

Tetsuo, you must know
Your power will grow
Lose your face lose your mind
Lose your soul
Kaneda, you must fight
The fight for your life
Burn the road burn the sky
Burn it all

Akira, Akira
You have the power inside
Akira, Akira
You have the power to burn through the dark and the light

Neo Tokyo is about to burst
The time of atonement is here
We should not touch that power
The power of a god
The wind will send the seeds to Earth
The wind named Akira

Tetsuo, you must know
Your power will grow
Lose your face lose your mind
Lose your soul
Kaneda, you must fight
The fight for your life
Burn the road burn the sky
Burn it all

Akira, Akira
You have the power inside
Akira, Akira
You have the power to burn through the dark and the light
