

## Cast Iron

**Skelator**

Racing through the night, we feel the power and the might  
We hear the sound, we feel the pound of heavy metal  
Facing all your fears and now you're drowning in your tears  
We see the light, we feel the plight ignite us all

Cast Iron  
Burning through the night  
Cast Iron  
There is no end in sight  
Cast Iron  
Ready for the fight  
Cast Iron  
'cause metal never dies

Settling the score, you know we always want some more  
Open your eyes to see the prize, we're here for glory  
Tearing down the walls, we are proud and standing tall  
Raise your fist to feel the bliss, we're making history

The flames and getting higher!

Cast Iron  
Burning through the night  
Cast Iron  
There is no end in sight  
Cast Iron  
Ready for the fight  
Cast Iron  
'cause metal never dies
