

Night Stalker

Skelator

I stalk the night, a disciple of Satan
You start to panic, as the terror sets in
Rape, murder, The smell of death in the air
Sodomization, the horror of it is too much to bear
Pentagram, the sign of the devil is on the wall
It reigns above, the body disemboweled

(Chorus)

Stalker in the Night
Stalker in the Night
Stalker in the Night
Night Stalker

Demonic rage, flows through my veins
Voices in my head, compel me to bring you pain
You lock the doors, but somehow I'll get in
My unstable mind, drives me to commit this sin
Sadist, with every kill I please my master more
Satan, It is be whom I do this for

(Chorus)

"I am beyond good and evil
Legions of the night
night breed
repeat the errors of the Night Prowler
and show no mercy.
For I will be avenged
Lucifer dwells within us all..."

Tie you up
Against the bed
Torture you
With electrical chords
Raping you
Soon you'll be dead
Mutilating you
With a machete
Killing you
In every possible way
DIE!!!

(Chorus x4)
