

Psychic Silver Wheels

Skelator

Had to find each other
In the neon streets
Where the cyber slavers steal your mind
Jacked into the power
Smashing through the grid
Leaving Megacity far behind

Ice cold burning steel
Psychic silver wheels
Laser eyes and napalm thighs
Hellbound highway queen

Left it all behind us
Sirens in the sky
Driving through the desert in the night
Taking on contenders
Fall before her might
Cruising on until we see the light

You got my piston running hot
Just show me what you got

Ice cold burning steel
Psychic silver wheels
Laser eyes and napalm thighs
Hellbound highway queen
