

# Stronger than Steel

**Skelator**

I see my enemy charging with blade in hand  
I raise my shield to protect my land  
What they do not know is we will stand  
United to our clan

Ride like the wind  
Truth on my side  
Righteous my blade  
Blood on my mind  
Faster than light  
Heavier than hell  
Darker than death  
Stronger than steel

I see their bodies are scattered across the field  
They could not withstand the power we wield  
I would rather die than ever yield  
Your fate has been sealed

Ride like the wind  
Truth on my side  
Righteous my blade  
Blood on my mind  
Faster than light  
Heavier than hell  
Darker than death  
Stronger than Steel
