

## As Long as That's True

Skin

Tell me this fight  
Was just a cause  
That we will die  
With there flaws  
I know it's meaningless  
But that is what we all face

As long as that's true  
I can get over you

Tell me you used me to climb  
Above us poor souls (standing) in line  
For me a lot of pain  
Is what I need to pull me through

Want to feel this hatred  
It's what I need to drag me through this  
I survive through nothing less  
It tears me up as you calmly use it  
Love abuse is just a test  
Then sad old love songs  
Stick the knife in deeper everyday  
Twisting as you play

Tell me your reasons  
Weren't pure  
So I can kill  
This wretched lust for you  
Some damage done  
Is what I need to go alone

As long as that's true  
I can get over you
