

Take Me On

Skin

I've seen a picture
Of you and me
You're looking violent
I'm looking pleased

You got a face like a television
That keeps switching off
I'm a free believer
But that's not enough for you

Chorus
You gotta take me on
Gotta give me what I want
Gotta take me on

Don't need a saviour
Don't need a queen
Gonna win with the sinners
Gonna sin where you've been

Press the button called spacebar
So we can see what you mean
I've seen the future
But it's not enough for you
