I've seen a picture
Of you and me
You're looking violent
I'm looking pleased

You got a face like a television That keeps switching off I'm a free believer But that's not enough for you

## Chorus

You gotta take me on Gotta give me what I want Gotta take me on

Don't need a saviour
Don't need a queen
Gonna win with the sinners
Gonna sin where you've been

Press the button called spacebar So we can see what you mean I've seen the future But it's not enough for you
