

All the love I give to you  
You take away  
And all the love you bring to me  
I take away

Release the pain  
From all the love that I give  
Don't take away  
From all the love that I give

Yeah, I've been through denial  
Yeah, I've been self-deprived  
What will it take...  
What will it take...  
Of my friends?  
Of my friends?  
Of my friends?  
Of my friends?

I've been through denial  
I've been self-deprived  
What will it take to feel again?

No, you can be working on me  
Don't take away  
All the love that I give

Yeah, I've been through denial  
Yeah, I've been self-deprived  
What will it take...  
What will it take...  
Of my friends?  
Of my friends?  
Of my friends?  
Of my friends?

I've been through denial  
Yeah, I've been self-deprived  
What will it take to feel again?

I've been through denial  
I've been self-deprived  
What will it take to feel again?  
Of my friends?  
All the love I give  
Of my friends?  
All the love you give  
Of my friends?  
All the love I give  
Of my friends?  
All the love you give  
Of my friends  
All the love I give  
Of my friends  
All the love you give  
Of my friends  
All the love you give

Of my friends  
Of my friends
