

Under a caving beaten
Educated and believes
Unload a gun the son
Into the breach from which it came.

Aside from writing walls on
Put on as if facts to see
Reactions cause deferral
From a passed on futures needs.

Pissing on clocks uncertain
Heavy breathing - can it breathe?
This test is way pass stress points
Pushes buttons for release.

They changed the world for certain
Reigning in false prophets made
We're spending all the future
Future's never ours to see.

Add it up (SPINNING THE TELEVISION)
Add it out (PUT IT BACK IN IT'S PLACE)
Shameful what my black eyes
Collurize.

Hack it up (STOP LOSING OPPOSITION)
Shake it out (PUTTING UP WITH THIS PLACE)
Dream bloody eyes, red full of lies
Collurize.

Fade out in one act over
Turning never ending dream
All caught and caught up in
The moments we can never see.

Aside from writing walls on (FOREVER AGING)
Put on as it facts to see (FOREVER GAINING)
Reactions cause deferral (FOREVER CHANGING)
For a passed on future needs.

Add it up (SPEND IT ON TELEVISION)
Add it out (PUT IT BACK IN IT'S PLACE)
Painful what my black eyes
Collurize.

Hack it up (STOP LOSING OPPOSITION)
Shake it out (PUT BACK IN IT'S PLACE)
Shame bloody eyes, red full of lies
Collurize.

The body's lost a lot of caption
Forest for the trees.
For making mistake and
I'm never older than my truths.

Eyes don't hate want, want to want to wake up
Want to want to wake up

Eyes don't hate up what want to want to wake up
Want to want to wake up
Eyes don't hate that want to want to wake up
Want to want to wake up
Eyes don't fake that want to want to wake up.
Want to want to wake up
Eyes don't face up that want to want to wake up.
...
(Other wise face it)
