

Satellite

Skold

It's all the same to me
I'm only circuitry
I'm a satellite
Just floating by
I shine blindingly
Others you can hardly see
F-f-f-uck you too

There's no controlling me
I return triumphantly
I'm a satellite
Just floating by
Way, way up high
Up high

I travel at speeds you can't comprehend
I have seen things you can't understand
I, I, I
I, I, I
I, I, I

I see you far below
Dust in the afterglow
I'm a UFO
I hope you like the show
Go, go, go
I'm made of rock 'n' roll
F-f-f-f-f-f-fuck you too

There's things you'll never know
From oh so long ago
I'm a UFO
I hope you like the show
Goodbye, hello
Hello
Hello
