

What You See Is What You Get

Skold

Trapped beneath the noise, stuck in undertow
I know it's the end of the road
Still the gospel rage and the cold bloodflow
I know

What you see is what you get
Nothing more and nothing less
What you see is what you get
No excuses, no regrets
So hold on tight and don't forget
What you see is what you get

Cut from bleeding dreams, dust and shattered bones
I know it's the end of the road
Reality collides with the stardust in my eyes
I know

What you see is what you get
Nothing more and nothing less
What you see is what you get
No excuses, no regrets
So hold on tight and don't forget
What you see is what you get

And, out of the black, comes a small ray of light
The light, I walk to the light
I'm falling apart at the seams, but I'm here, so lonely
The light goes away and it all turns to black, so black
There's nothing blacker
The life of a friend flashes by, but I'm still here, lonely

What you see is what you get
Nothing more and nothing less
What you see is what you get
No excuses, no regrets
So hold on tight and don't forget
What you see is what you get
