

## Stand Up (summer Song)

Skrape

This fades into all that you say  
Up in, it's all mine  
A virgin to the sound of today  
We all shine

Stand up, stretch your mind  
We're living in a summer song  
Breakout, don't taste fine  
We're living in a summer song

This burns in my thoughts for today  
A frame of mind  
A picture in the sunlight and shade  
Alive we live life

Stand up, stretch your mind  
We're living in a summer song  
Breakout, don't taste fine  
We're living in a summer song

Sunlight  
Sunlight

Stand up, stretch your mind  
We're living in a summer song  
Breakout, don't taste fine  
We're living in a summer song

My summer song  
My summer song  
My summer song  
My summer song
