

99 Tears

Sky Ferreira

I give you all of my body my soul and my money
I think that you would be my one and only
rumors you're cheating and I ain't leaving banging and crying
dirty to place not a word to say
don't you know that I think about enough now
karma karma it will bring you back
don't you think that you'll be missing me?
cause if I go where will I go

chorus

turn around it's my turn to let you down
I love it when you... cry
turn around it's my turn to let you down
you can drawn in 99 tears
cry baby cry (repeat)
you can drawn in 99 tears

every day you kept me waiting while you were only betraying
hoping that I'll never learn the games you were playing
now you wanna call me only because you are very lonely
baby look who is crying now
don't you know that I think about enough now
karma karma it will bring you back
don't you think that you'll be missing me?
cause if I go where will I go

chorus

you don't know how it feels to be me
when your heart is... and your dreams are all gone
