

## Night Time, My Time

Sky Ferreira

I'm useless and I know it  
Auditory hallucination  
You said I don't  
care what I'm thinking about  
But I'm thinking of you right now  
Night time is my time  
dreamin' of moving  
Falling in space  
So will i  
sit down?  
Or go faster and faster?  
Into the maybe  
Slow down  
Right now  
I wouldn't feel anything  
When we burst into dust forever  
And no angels will help us out  
'Cause they've all gone away  
Night time is my time  
I'm dreaming of moving  
Falling in space  
So will i sit  
down?  
Or go faster and faster?  
Into the maybe  
Slow down  
Right now  
Faster and faster  
I'm going faster and faster  
I'm going faster and faster  
I'm going faster and faster  
I'm going faster and faster  
Faster and faster and faster
