

# I Don't Really Like You

Skye Sweetnam

I know what you're trying to do  
Make me fall for you  
Oh why  
I want you to leave  
And leave me alone  
Everywhere I go,  
You'll always be there,  
Try to give you hints to leave  
(But it's like it came of the other ear)

I don't care what you do  
I don't care about you  
I don't care get a clue  
Cause I don't really like you, I dont really like you

You and your friends are dense  
You dont make any sense  
It's all at your expense  
Cause I don't really like you, I dont really like you

Why have you done this to me  
(You know I'm busy)  
Oh why  
I've been nice so far  
But I can't take it anymore

Time passes by  
And you wonder why  
I'm not gonna lie  
You mean nothin' to me

I don't care what you do  
I don't care about you  
I don't care get a clue  
Cause I don't really like you, I dont really like you

You and your friends are dense  
You dont make any sense  
It's all at your expense  
Cause I don't really like you, I dont really like you

You heard what I said  
I said I dont really like you

Time passes by  
And you wonder why  
I'm not gonna lie  
You mean nothin' to me

I don't care what you do  
I don't care about you  
I don't care get a clue  
Cause I don't really like you, I dont really like you

You and your friends are dense  
You dont make any sense  
It's all at your expense

Cause I don't really like you, I dont really like you

I said I dont really like you
