

Realm Of Silence

Skyfire

Speeding up in conscience and mind
Putting up one last fight
Preparing to take it in
Only disintegration in sight

The tools to twist the hands of time
Has done their final turns
Rendering the ending scene
Beautiful it's passing by

Facing the fatal fate
Slowly it's sinking in
Rise from the realm of silence
Conquer the pain
No longer constrained
Rise from the realm of silence
Aeons of entity
Learning by dying
Knowledge passing through
Sending the codes of existence
Straight into nowhere

By the look of those eyes
This seems to be a revelation
Seek deep in your mind
And you'll find
It's been there for quite some time

[Choir]: Rise from the realm of silence
Conquer this world of pain
