

Kick The Gig

Skyline

It comes again, wow-another great event's here
we gonna enjoy this night on da full gas-it's clear
take a bit of dough, close da door and leave home
then we jump in da car, all the crew you know
listen to da stereo, that music turns us on
roll that blunt, knock back some beer, before we score
get out of da car, then we hit da bar
check it out, this is how it goes everytime
now comes our turn
we step in, you burn
you got something to learn
and bring a breath of fresh air
this is how we go
you check this mode
ride da best you know
and still want more
we bring the fire
burning desire
eyes open wider
lights shining brighter
we bring the power
you still require
make you scream louder
always makes you stronger
these beats are wild
you'd better hold on tight
this relaxition you like
and you can do it all night
look around-so many faces are proud
to be here till da break of dawn
