Crown Holder

Skyzoo

I jump in the pocket it's like if M A $ E up
In Purple Tape jewelry '95 features
Aura never lie how we got it's how you see us
Caught in the design bet I'm flyer than a re up
Bottom line we up can't nobody see us
Invisible ghost writer how I light a screen up
I been up for hire like I got it by the liter
You ain't heard better since son was hollering "chea"
Cheer me on look at the tier I be on
I done been acclaimed so long I'm cleared beyond
Music for my friends who never could steer me wrong
Straps all over their front like a pair of Deion's
For realla and it get for realla like
Killing the top to figure out what the ceiling's like
From in the new shit new shit roof split like Goyards
Know I'm for the city like Olaf's

I been on my newfound crown holder
But it ain't nothing new now from how you know it
I been on my newfound crown holder
But it ain't nothing new now from how you know it
We don't even gotta back and forth it
I done made whoever come up off it
I been on my newfound crown holder
But it ain't nothing new now from how you know it

You can call this my new shit but it ain't new tho
I done helped raise a couple stars that you know
Know the fans I be attracting is 'bout a loophole
Circling the check cash tryna catch a new zoe
Talk keynote or kilo' I can do both
Crowned me for being the first to put 'em too close
Underrate him but over pay him is how the loop go
Still got the line on whoever is what you do know
And you know jump in your lane and pull the echoes
Son I'm all over the aim I'm hoodie Melo
Been up to look like I wasn't wasn't an accident
So if I'm still sitting I'm Kaepernick
I tell 'em like for realla and it get for realla like
Killing the top to figure out what the ceiling's like
From in the new shit new shit roof split like Goyards
Know I'm for the city like Olaf's

And I tell 'em realla
And it get for realla like
Killing the top to figure out what the ceiling's like
Killing the top to figure out what the ceiling's like
Aura never lie so you know what it's hitting like
