

## Doing Something

Skyzoo

Me and mine was just tryna make something outta this  
Braille on the blueprint, stencil out the design of it  
Parallel to whoever you with with is how you aligning it  
The truck is even flyer if we the ones that's inside of it  
They said the inside of your crib is how you come out of it  
So jumping off the steps ain't a threat to who you was following  
My man said he just know what he know, and shit is fine  
As long as when he hit rewind that he got a big enough pot for it  
Said that he straight drop with it  
I saw the proof in it, 5's can turn to an A5 if you in a groove with it  
Dance all on the root of it, step on the motive  
And crowns coming with rounds is shit that they never told us  
They said to see any further won't help you get any closer  
But still it's 20/20, drilling who's coming for me  
Pegs all on the back of my goose was how I grew  
You rode then?, then you ride now, know how we do, like fuck it

Me and A' was just tryna make something outta this  
Me and Bro was just tryna make something outta this  
Me and Steph was just tryna make something outta this  
Me and Paesoes was just tryna make something outta this right?  
Me and A' was just tryna make something outta this  
Me and Bro was just tryna make something outta this  
Me and Steph was just tryna make something outta this  
Me and Paesoes was just tryna make something outta this right?

And Nyce too, maybe more so than everyone  
More than I would've thought that anyone could've ever done  
5 stars out of a basement, they couldn't level us  
'Cause you don't know what forever means until forever comes  
And you don't know when forever leaves until forevers' done  
But we don't gotta never say never, there's no bezel up  
Ain't too many left here to breathe can stand next to us  
Make sense that they got the seats if we forever up  
From day one it was theme music for peddlers  
And bitches buying loosies, weaves tucked in a Doobie  
Queens under their Doobies, here off of pay phones  
I'm here til the jakes roll and I leave before they shoot me  
They never leave from around us  
Time took its place and they remembered Larry Davis and made a Kalief Browde  
r  
Pegs all on the back of my goose was how I grew  
You rode then?, then you ride now, know how we do, like fuck it

Me and Nyce was just tryna make something outta this  
Me and Ant was just tryna make something outta this  
Me and Bizkit was just tryna make something outta this  
And can't nobody get to it how we made something outta this right?  
Me and Nyce was just tryna make something outta this  
Me and Ant was just tryna make something outta this  
Me and Bizkit was just tryna make something outta this  
And can't nobody get to it how we made something outta this right?

Or how we wasn't even supposed to be here  
Said it's too high for us to breathe here  
Now look how we here  
Couldn't pay mu'fuckas to leave here

But my Mongoose's here if we need here, forever ever  
Or how we wasn't even supposed to be here  
Said it's too high for us to breathe here  
Now look how we here  
Couldn't pay mu'fuckas to leave here  
But my Mongoose's here if we need here, forever ever
