

# It's All Good

Skyzoo

This one goes out to every dollar I saw and wanted to somersault  
You cartwheel all winter and bet the summer's yours  
From where the dialect is the duffle bag that you're gunning for  
And if they handing you one then they scratched the numbers off  
I'm off a different page but I'm still the way that you love me for  
Love it or leave it I come from seeing  
That no one or nothing breathing  
Can grow up to come between what you done for yours  
Unless you add like 100 more, live and learn  
14 hearing that all we need is to get a curb  
Shorties used to turn down the Henny, it'd make their titties burn  
Crown draped over my dome before I could get a word  
Ever since they drove down my block carrying Biggie's urn  
From up the block, cross the street by the store  
When my man was put in position, told him peep out the door  
One close, another open, until they cut the tokens  
My flow the same reason they cut the dope and you tell them it's all good

It's all good to my peoples on the curb  
That's getting to it but never said a word, you heard?  
It's all good, it's all good when the real's represented  
Forever alive, now how you living? What?  
It's all good, it's all good the way we ran with it though  
98, black champion flow, swear to God  
It's all good, it's all good word to grey bottom fitteds  
And know if you rocking then you riding with us, for real, all good

And it's still to my man Stack Bundles God bless your life  
And my man Chinx also, word to the way the law rolled  
On me when I was leaving your service and they had all those tools drawn lik  
e yo don't move par!  
You look like you move raw, with all of them jewels on  
I look like I ghost write, what's all of this mood for?  
I'm due for, heading back to my old block  
Where that new store's really the same old store my mans used to move for  
I'm back like 23 winning one and then two more  
BMI thru the shoe store, fuck is the brand new for?  
Don C legacy J's, blue and orange joints  
You say I'm set in my ways, you probably got a point  
My son uses the potty so he's older now  
Fred Hampton, Huey Newton I'ma mold him now  
But still teddy bear sweaters, bet he lo to the ground  
The hybrid of everything that comes with owning a crown

It's all good, it's all good to my peoples on the curb  
That's getting to it but never said a word, you heard?  
It's all good, it's all good when the real's represented  
Forever alive, now how you living? What?  
It's all good, it's all good the way we ran with it though  
98, black champion flow, swear to God  
It's all good, it's all good word to grey bottom fitteds  
And know if you rocking then you riding with us, for real, all good

Due to me being who I visualized  
But still got friends of mine that'll have you spending five  
I been incentivized to come remind y'all that's it's live or die  
In all Purple denim like Prince alive

Raspberry Beret, raspberry Corvette  
Stashed right by the steps is how we was left til we was left  
Yo you ever been surrounded by police  
And overhear them whispering to plan where to throw a ki?

It's all good, it's all good to my peoples on the curb  
That's getting to it but never said a word, you heard?  
It's all good, it's all good when the real's represented  
Forever alive, now how you living? What?  
It's all good, it's all good the way we ran with it though  
98, black champion flow, swear to God  
It's all good, it's all good word to grey bottom fitteds  
And know if you rocking then you riding with us, for real, all good

You ever been surrounded by police  
And overhear them whispering to plan where to throw a ki?  
You ever been surrounded by police  
And overhear them whispering to plan where to throw a ki?  
You ever been surrounded by police  
And overhear them whispering to plan where to throw a ki?  
You ever been surrounded by police  
And overhear them whispering to plan where to throw a ki?
