

# Money Makes Us Happy

Skyzoo

Scared to death  
By this race I've run  
All that's left, is everything I want  
And I'm slowly losing my time  
Quickly taken back from me  
Seems my friends are few  
Mama said prepare to pay  
Cause happiness comes from money  
Happiness comes from money

Money makes us happy and, happiness is everything  
And everything is now and, now is more than never and  
There'll never be a moment where happiness doesn't matter so  
If you can quote the prices of your happy then get at us yo  
Get at us yo, learned it from right where you saw me posted at  
Grew up holding on to it all unless there's hope attached  
Cause me?, I don't hope for much, uh, if anything at all  
They said your cue will depend on what you can bring along  
So we was bringing everything that mattered to us most  
It was money and it was cars and it was habits to keeping both  
It was hundreds and it was scars and they just happened to be close  
It was hunger getting involved so then it was back to being broke  
And we just wanted a shot or 2, Melo on the follow through  
Promised me it would open these doors the way that they promised you  
So I just do, whatever it takes to fuck with it all  
And enough to buy my way next to Jesus if I get lost, swag

Scared to death  
By this race I've run  
All that's left, is everything I want  
And I'm slowly losing my time  
Quickly taken back from me  
Seems my friends are few  
Mama said prepare to pay  
Cause happiness comes from money  
Happiness comes from money

And they say money makes the world go, money makes your girl go  
Money turns some of its earners into something terrible  
Ask yourself where did the person who was in the mirror go?  
Why am I unrecognizable, so unbearable?  
In the pursuit of paper, it was then I wasn't there with you  
To do it over I'd've taken better care of you  
It costs money for the birth, more for the burial  
Purposely I'm saving up to purchase us a miracle  
We want more but need less, desires and requests  
I guess moving constantly at this rapid speed just  
Effected my velocity, then the evil got to me  
And strangely, it fucked around and changed my philosophy  
I always heard it's not the quantity but it's the quality  
In all honesty, past mistakes seem to follow me  
Sometimes I feel like if my psychology will swallow me  
So my apologies, what's my problem yo?, it's gotta be the money

Scared to death  
By this race I've run  
All that's left, is everything I want

And I'm slowly losing my time  
Quickly taken back from me  
Seems my friends are few  
Mama said prepare to pay  
Cause happiness comes from money  
Happiness comes from money

And it was falling out the sky like if Doug E. Fresh was performing  
And we already had too much and so we was brushing it off us  
In pictures in front of back drops til like 4 in the morning  
In all of this Dapper Dan for all of your dapper adornment  
Or its falling on the badge in the murder of pick a name  
And my name fill the blank and I'm blanked and I drift away  
And you kiss my cold cheeks, chicks crying like I was Cochise, would you stand up  
And send me a slow speech?, because money makes us happy and, happiness is  
Everything, and everything is now and, now is more than never and, there'll  
never  
Be a moment where happiness doesn't matter so, if you can quote the prices of  
f  
Your happy then get at us yo

Money  
No surrender now and no restraints  
No complaints  
(Lord knows the price will only raise)
