

Cherry Beamers, 35s on the windows  
Or we can stash these and tag team on the Benzo's  
Prayers up to the etiquette baby, never forget tho  
Pull up in front of Willie Burgers and let a flick roll  
38 in my shearling, word to my zip code  
Dealer man turned my back seat into Nintendo  
You know I whip around for the broads right off the get go  
Fucking up shorty finger waves, I'll get em fixed though  
All of this could be ours off of packaging innuendo  
Promise I can put all my loyalty in a rental  
The game never did me wrong, it wouldn't start now  
Lights never got more brighter than for the dark child  
Picture being parked by the roof top in new drops  
Gucci to the tube socks, solely off a shoe box  
Can't nobody stop us so if I got then you got  
If I'm hot then you hot, now peep what we can do right

Ten days, ten days, I mean ten baby  
They can't keep up with us now cause they couldn't then baby  
Ten days, ten days, I mean ten baby  
All this dough we can make, don't have to end baby  
Ten days, count it down, count it down baby  
Ten days, follow how I come around baby  
Ten days, count it down, count it down baby  
Ten days, follow how I come around baby

Okay, all I know is spending 20 large with Dap  
We pull up on forty deuce and they thought that we rapped  
The disrespect, cause rappers ain't paid like this  
I try to tell em they should make that switch  
They're hard headed, nevertheless, the M.O is making sure that everything st  
retch  
And know that the city won't ever forget  
In the jects with 80 by the curb in a pair of Stans  
I pull in and out this bitch and you'll swear you can hear a band  
Theme music for super heroes in Louis capes  
Only thing better than what you make is who you make  
And bet I make, stars outta the hood like I'm supplying 'em  
A St. Lazarus piece can be so inspiring  
Bet you we can have the city singing along  
Living proof that every king was a pawn, know how the game go  
Money talk, reputation talk louder  
Both in a choke holder, never made 'em prouder

Gimmie ten days, ten days, I mean ten baby  
They can't keep up with us now cause they couldn't then baby  
Ten days, ten days, I mean ten baby  
All this dough we can make, don't have to end baby  
Ten days, count it down, count it down baby  
Ten days, follow how I come around baby  
Ten days, count it down, count it down baby  
Ten days, follow how I come around baby
