

# The Moments That Matter

Skyzoo

The moments we all waited for  
Dreaming down on the first, we all paying for  
More to be expected and more to get you acquainted on  
We all in for the win until the parade is on  
We're gone, and the drive is with the roof peeled  
The AC on, providing how the truth feels  
Cold, chilly chill like our demeanor be  
But all of this shit is really about the scenery  
Cause sightseeing's like window shopping  
You might see it and proceed to believe it, you bust a move or  
move  
You might lead it like the intro got it  
You might be it and proceed to believe it, it takes you to be y  
ou  
It takes us to be us, and we the same the cloth  
Knotted up together forever, to rearrange was  
Not in the design or the ties that bind us  
We saw it and got on it, no blinders, you see it now

Wanted it as much as we wanted to breathe  
Top down, what a beautiful scene  
Saw it for the taking and wanted a piece  
Saw it for the taking and made 'em believe  
Know that the moment won't change  
The moments that matter the most to us  
Know that the moment won't change  
The moments that matter the most to us

And all of this carpe diem, double parking a BM  
If the legacy is right then we staring at mausoleums  
But for now, know the moment is here and now, and gone forever  
Envisioning what the song get us  
Feeling like I'm money making Mitch, in the store like I'm brok  
e baby  
Forgetting all that I got on, ain't my ropes crazy?  
I'm in this bitch looking like I sell dope baby  
To these women I sell hope baby  
Shit I swear I'm just my daddy all over again  
The only one on the block so now we all like him  
Tell the money, I want the love, baby I want the love  
For all the right reasons that may just be from above  
I came up where you see the paper and fall in love  
And the only way you got your Mercedes was off of drugs  
They put it front and center while I saw around the corner  
But the same one was parked around the corner, explains why we.
