I Don' Mind

I don't mind, if there's a change in me I'm unkind, that's how I've got to be am I being cruel, am I being cruel I danced on your face it seemed the best place for acting the fool I got time, to put my wrong things right my life's mine, to do with what I like am I being cruel, am I being cruel I danced on your face etc. [chorus] I'm going up, down, all around build me up and knock me down to the ground, I don't mind, I don't mind my star sign, was just no good for you it might shine, but it can't pull me through am I being cruel, am I being cruel I danced on your face etc. [chorus] I danced on your face etc. I don't mind [repeat to fade]
