Do Something

Slank

The chance we got should we take No more sleep for a break Grow up are you ready a wake Don't dance with fake

I have to go going somewhere a better place I'm so stupid when I feeling ace Stuck here just waiting for a grace Doing nothing to chase

There's no wasting time When we do something

Win or lose we have to face Drive your speed car we gonna race Get your rocket machine try out of space

There's no wasting time When we do some thing There's no wasting time When we do some thing

So help me find a better place Say Bismillah for God sake
