

Drug Me Up

Slank

Be my Mary Jane
Your love like a chain
I'm feelin in vein
And cure all my pain

Addicted to your passion
I'm sober when you're gone
Give it all my affection
You make my heart brawn

Drug me up
You stunned me down
Want you drug me up
You stoned me down
Drug me up
You stunned me down
Want you drug me up
You stoned me down

You are my pain pill
Relieve all my ills
You will gild the pill
Clean up hurt i feel

All the way you do
I really strung out to you
Want you be my zoo
Don't ever let me through
