

Since You've Been Gone

Slank

Everyday, everyday I just wanna play
And everyday, everyday I just need to stay
Everynight, everynight I just wanna go fly
And everynight, everynight I just wanna get high

I don't have to be
I don't have to be the same again (coz you don't care)
Since you've been gone, since you've been gone
I'm so sad and lonely

Everyway, everyway I do I've done it wrong
And everytime, everytime I get hurt
I sing a torch song

I don't have to be
I don't have to be the same again (coz you don't care)
Since you've been gone, since you've been gone
And hate me
